DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed 11 July 2007 have been fully considered but they are not persuasive. Applicant has argued that the additional limitation "longitudinal" renders the instant application allowable over the prior art reference Drasler et al. ("Drasler")(U.S. 6,241,763). However, the amendments made to the claims are still anticipated by the Drasler reference. Considering the broadest reasonable interpretation of the claim language the prior art (as seen in figure 3B) is folded longitudinally wherein a first portion (80) is folded over a second portion (70). Since the fold is in the longitudinal direction and a first portion has been folded over a second portion the prior art meets the claimed limitations.

Allowable Subject Matter

2. Claims 17 and 19-23 are allowable over the prior art of record.
3. Claims 2- 11 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 3738

5. Claims 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Drasler et al. ("Drasler")(U.S. Patent Number 6,241,763).
6. Drasler discloses a method of providing a unidirectional flow valve comprising folding a first portion of a vein over an adjacent second portion of the vein and engaging at least two opposing areas of the second portion of the vein with at least one support device, the support device comprising the stitching holding the two portions of the vein together (Abstract; col. 5, line 60 – col. line 30).

Conclusion

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).
8. A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
